SINLAKU RECOVERY UPDATE

As of Monday, May 4, 2026

The Joint Information Center (JIC) continues to coordinate response and recovery messaging following the impacts of Typhoon Sinlaku. Response agencies and partners are working around the clock to restore critical services and support affected communities across Saipan, Tinian, and Rota.

POWER & WATER

Active Utilities Restoration Updates

At approximately 10:17 p.m. on May 3rd, 2026, CUC power crews restored service to the Department of Public Safety and the Department of Corrections by re-energizing a fuse cutout, enabling safe isolation and protection of the affected line segment.

At approximately 4:07 p.m. today, May 4th, 2026, CUC power crews successfully restored service to the Sadog Tasi Wastewater Treatment Plant by reconnecting it to the power grid. This facility plays a critical role in treating wastewater prior to ocean discharge, supporting public health and environmental protection.

CUC appreciates the community's continued patience and support as restoration efforts progress.

POWER RESTORATION SNAPSHOT

Utility	Saipan	Tinian	Rota
Power	100% Offline** Pending count in restored areas	100% Offline	Back to Normal Operations

JIC UPDATE: 024
Monday, May 4, 2026
Valid 1830ChST

Commonwealth of the Northern Mariana Islands
Joint Information Center

Water	49% Restored (Boil Notice)	99% Operational (Boil Notice)	100% Restored
--------------	--------------------------------------	---	----------------------

Saipan Restoration

System Status & Safety

- **Outages:** 15,624 customers remain without power, including 11,769 residential customers.
- **Infrastructure:** A total of 624 power poles are confirmed down.
- **Hazardous Materials:** EPA and FEMA support for hazardous material cleanup, including damaged transformers, has begun. As of 04/30/2026, there have been a total of 46 transformers retrieved.

Transmission & Feeder Updates

- **Feeder 1 & 3, Partial 1 to the Feeder 1 & 3, Partial 1 to the Hospital was initially energized at 4:00PM on 04/19/2026;**
 - **On 05/02/2026 at approximately 5:00AM, CHCC energized from Power Plant no. 4 (PP4) with diesel engine no. 1 (DE#1). The hospital may be transferred to PP1 after CUC stabilizes the feeder.**
 - **Re-energizing the following feeders: Feeder 1 and portions of Kiya 3 and Kiya 4 (Middle Road and Beach Road).**
- **Feeder 4:** Completed restoration work of clearing down wooden poles from Kagman Main Road. Completed restoration work at the KG 131 well, Kagman Booster overhead power lines to the generator. Completed the installation of 4 power poles on Feeder 4, 1st Partial from Power Plant no. 1 towards the Governor’s Office.
 - Work in Progress:
 - FEMA Debris Task Force cleared access to all primary and secondary roads and cut down power poles.
 - Restoration work in progress to install 1 concrete power pole toward the CUC water facility.
- **Feeder 7:** Currently restringing and re-framing conductors at the As Matuis Water Wells.
 - Work in Progress:
 - Restringing and re-framing conductors on the 1st Partial.
 - Troubleshooting transformers in the As Matuis water wells.
- **Kiya 1:** Completed ongoing restoration work of restringing, reframing of
- conductors towards the Isley and Obyan water wells from Power Plant no. 3.

FOR MEDIA INQUIRIES:
CNMI JIC COORDINATOR - MIGUEL DANDAN (miguel.dandan@marianas.edu)

JIC UPDATE: 024
Monday, May 4, 2026
Valid 1830ChST

Commonwealth of the Northern Mariana Islands
Joint Information Center

- Work in Progress:
 - Straightening of concrete power poles along Kiya1/2 double circuit.
- **Kiya 2: Completed ongoing restoration work clearing and restringing and re-framing primary lines along As Lito Road toward the NAP Office and line clearing from San Antonio to Koblerville.**
- **Kiya 3:** Completed the restoration work at the S3 Lift Station, the facility has been isolated and ready to be energized. All pad-mounted transformers, customers who were isolated are awaiting the linecrew to open fuse cut-outs ready to be energized.
 - FEMA Debris Task Force cleared access to Chalan Kiya Road.
 - Restringing and framing of conductors on Beach Road and Chalan Msgr. Guerrero (former Atkins Kroll intersection) to the Garapan Fishing Base (near Horiguchi Building)
- **Kiya Substation:** Installation of FEMA generator completed on 04/28/2026. Pending procurement of the substation DC Batteries
- **Kiya 4:** Completed clearing of primary lines in Oleai/Falufula and Susupe (near Mt. Carmel Cathedral).
 - Work in Progress:
 - Restringing and reframing of primary lines on Kiya 4, 1st Partial (near the Ada Gym to the Chalan Kanoa US Post Office).

Current Stats as of 5/2/2026: 624 poles down (**107 Poles Replaced with an increase of 6 poles repaired**) | 552 transformers down | 15,624 total customers out (11,769 residential)**.

****Pending count of customers online on Feeder 1, Kiya 3 and Kiya 4 as of 05/03/2026.**

Saipan Power Generation Facilities

Facility	Status Update
Plants 1 & 2	Preliminary damage assessments are completed. A contractor started repairs of side walls to prevent further water ingress into the switchgears and protect the generators-85% complete. Diesel Engine (DE#1) offline as of 05/02/2026 at approximately 7:55PM. Work in Progress - DE#2 and DE#3: Ongoing heating.

FOR MEDIA INQUIRIES:
CNMI JIC COORDINATOR - MIGUEL DANDAN (miguel.dandan@marianas.edu)

Commonwealth of the Northern Mariana Islands
Joint Information Center

Plant 3	Backup generator is operational. Total energy production as of 05/02/2026 is 3,253kWh.
Plant 4	Operational with a peak load recorded at 1MW. Energy production is 10,044kWh for 05/02/2026. The hospital was energized by PP4 with DE#2 and DE#3 operating and alternating.
Aggreko	Coordination began with CUC Power Plant no. 4 and Aggreko to begin synchronization prior to taking on additional electrical load.

Tinian & Rota Restoration

- **Tinian:** Feeder assessments are 90% complete; **111 poles and 55 transformers are confirmed down as of 5/03/2026.** All feeders remain **offline** (1,059 customers out).
 - Number of down power poles: 111 as of 04/30/2026
 - Number of transformers: 55 as of 05/3/2026 – Revised from 4/29 figure
 - Linear foot of down aluminum conductors: 53,164 of 556 conductors as of 04/30/2026
 - Number of damaged streetlights: 89 as of 04/30/2026
 - Number of residential weather heads damaged: 116 as of 04/30/2026
 - Rota line crew (5 staff) arrived on 04/27/2026 to assist with restoration.
 - **Work in Progress**
 - Ongoing retrieval of power meters from customers with generators and solar PV and debris removal.
 - Coordination meeting with USACE for debris clearing and assessment of damaged and leaking transformers for retrieval.
 - Feeder 3: Completed replacement & re-sagging 3.5 spans of 556 conductors, reframed wooden crossarms, replaced distribution hardware such as saddle Page 4 pins, insulators, machine bolts, washers and isolated customers on Feeder 3 towards the Maui 2 well.
 - Tinian Power Generation:
 - Major damages to power plant structure. Ongoing assessments, debris removal, clean-up of facility and securing engines & auxiliaries, switchgear, substation areas and security fence line repairs.

JIC UPDATE: 024
Monday, May 4, 2026
Valid 1830ChST

Commonwealth of the Northern Mariana Islands
Joint Information Center

- (No Change) CUC Saipan Engineering team assessed the Power Plant System on 04/20/2026 and 04/23/2026.
- An additional assessment was performed on 04/25/2026.
- Station power backup generator is operational and online as of 04/29/2026.
- **Rota:** 100% of primary lines are energized on Feeders 1 and 2. Only 8 customers remain without power due to individual infrastructure damage.

WATER RESTORATION

Saipan Water

- **Current Production: As of 05/03/2026: 7.8 MG/D out of 11.5MG/D (68% production).**
- **Customer Access: 49% (4,311 of 8,758 customers).**
- **Infrastructure: 55% (76 of 138) of wells and facilities are online. 29 are on the CUC power grid; 16 wells are on CUC generator; 31 wells are on FEMA Generator (Pending final count of FEMA generators online).**
 - **A FEMA generator has been installed at IF28 water well which provides water to the Saipan International Airport.**

Saipan Wastewater

- All CUC wastewater facilities remain without grid power; operations continue using emergency generators.
- 12 lift stations running on CUC generators; 13 supported by portable generators (rotational use).
- Agingan Wastewater Treatment Plant operating on a FEMA-monitored and fueled generator; 5 facilities now operational with FEMA generators (A1, A3, A4, A5 Lift Stations and Sadog Tasi WWTP) as of 04/29.
- 6 lift stations are currently bypassed using septic hauler trucks to prevent overflows.
- FOG (Fats, Oils, and Grease) program resumed; prioritizing damage assessments.
- 6 lift stations require weather head replacements (A9, A13, W8, S1, S8, T1); repairs pending.

Tinian Water Update

- **Water Service:** 99% online; 861 total customers (679 residential).
- **Damage Assessment:** Damages were observed on the roof of the Tinian Water Tank. Engineering performed a damage assessment for the tank and Maui 2 booster station on 04/29/2026. Pending cost estimate for the temporary and permanent repairs to the water tank roof.
- **System Operations:** Maui 2 well running on backup generator.

⚠️ BOIL WATER NOTICE REMAINS IN EFFECT.

Rota Water Update

- **System Status:** 100% online; 863 total customers (681 residential).
- **Notice:** Precautionary Boil Water Notice was officially canceled as of April 22, 2026.
- **Infrastructure:** Solar chlorination system is non-operational; CUC is using an alternative chlorination source.

PUBLIC WORKS

NO CHANGE FROM PREVIOUS SITREP

Kagman Temporary Green Waste Disposal Site

The Kagman Temporary Green Waste Debris Storage and Reduction Site will open today, May 3, at 10:00 AM to receive residential green waste. Beginning May 4, regular operating hours will be 8:00 AM to 5:00 PM daily. For more information, contact the Solid Waste Office at (670) 322-2745 or visit dpw.gov.mp.

The Emergency Prescription Assistance Program

The Emergency Prescription Assistance Program, or EPAP is a federal program that helps uninsured people in disaster areas get the prescription drugs, vaccinations, medical supplies, and equipment that they need.

Who qualifies? Answer: People without health insurance

People who qualify for EPAP can replace certain prescription medicine, medical supplies vaccines and certain pieces medical equipment that were:

- Lost or damaged while evacuating or because of the disaster
- Not refilled before disaster
- Lost or damaged at evacuation shelter

You are ineligible for the EPAP if you have

- Individual health insurance policy
- Employer-sponsored coverage
- Medicare
- Medicaid
- Other third-party coverage

If EPAP is activated in your area after a disaster, follow these steps for help:

- Make sure you qualify for EPAP
- Find out if your prescription or medical supplies are covered by EPAP
- Find a pharmacy participating in EPAP
- Give the pharmacy your medical information

EDUCATION

FOR MEDIA INQUIRIES:

Joint Information Center

NO CHANGE FROM PREVIOUS SITREP

CNMI Public School System

- Schools Closed/Open: All CNMI Public School System employees will return to work on April 30, 2026, as campus cleanup and safety assessments continue. A Special Board of Education meeting is tentatively planned for May 1, 2026, to help determine next steps, including the timeline for students to return.
- Some campuses remain in use as community shelters under the American Red Cross.
- **FOOD ASSISTANCE – STUDENT MEAL DISTRIBUTION**
 - The CNMI Public School System will begin grab-and-go meal distribution for students starting May 4, 2026, while schools remain closed due to Typhoon Sinlaku impacts.
 - Meals (breakfast and lunch combined) will be available Monday through Friday, 0900–1300, while supplies last, across designated sites on Saipan, Tinian, and Rota.
 - Students must present a valid school ID to receive meals (one meal set per ID). Limited distribution (up to two meal sets) will be available for vehicles without IDs. Private school and Head Start students are also eligible.

Northern Marianas College

- Northern Marianas College (NMC) has announced that the Spring 2026 term is ending early in response to the ongoing recovery from Super Typhoon Sinlaku.
- To further support students during these challenging times, NMC has activated a dedicated student hotline: (670) 285-2059/7651 available from Monday to Friday from 8:00 a.m. to 5:00 p.m. WhatsApp messaging is an available option as well. More information is available at www.marianas.edu.

Northern Marianas Technical Institute (NMTech)

- NMTech campus will be open for limited operations for cleaning purposes only as it was flooded and filled with mud. Selected Staff report back to work on Monday to gut ceiling and floor tiles and drywall that has been saturated. All staff will report on Wednesday for full campus clean up. Depending on results of clean up will determine opening of campus for emergency services utilization, i.e. culinary classroom.
- **Spring classes will be suspended until the latter part of June 2026.**

AIRPORT OPERATIONS

Joint Information Center

Saipan International Airport
Status

- Daily (daylight) flights available on United Airlines, Micronesian Air Cargo/Connection Services (MACS) and Star Marianas Air (SMA) between Guam, Saipan, Tinian and Rota only. The Airport has no power and is powered by a generator. Limited running water.
- Airport Runway Assessment: Due to damage to navigational aids (navaids), flights are limited to DAYTIME operations only. Federal Aviation Authority (FAA) representatives are on-island to assess the damages to the navaids and the Air Traffic Control Tower. Parts are on order but may take time for it to arrive on the island.
- Additional assistance is being provided by staff from the Guam International Airport Authority to assess the apron and taxiway lights, runway signs and miscellaneous items around the terminal buildings.
- Loading Bridges (Jetways): All six bridges sustained damage, however, Jetway #2 is now operational. Jetway #6 is being repaired now. Two stair-carts will be used as a backup; increasing our enplaning and deplaning to three.
- Perimeter Fence: The perimeter fence line repairs are at 45% complete. Phase 2 is to fabricate chain link gates for all three (3) terminal gates.

Flights

- United Airlines resuming daily Guam service (effective April 23, 2026)
 - Arrival: 8:50 AM
 - Departure: 9:55 AM
- MACS and Star Marianas Air (SMA) operating daytime commuter and cargo flights
- United: Due to the operational complexities caused by Typhoon Sinlaku, United Airlines has made the difficult decision to suspend flights from Narita (NRT) to Saipan (SPN) from May 7 through July 10, 2026.

Capacity & Operations

- Flights limited to daytime operations only (due to damaged navigational aids)
- 1 operational jetway (#2); Jetway #6 under repair
- 2 stair carts available as backup
- Additional assistance is being provided by staff from the Guam International Airport Authority

Francisco Manglona Borja/Tinian International Airport

- **Tinian Airport is experiencing issues with the FEMA generator; therefore, the airport is, once again, without power.**
- Humanitarian flights only
- Daytime operations only

FOR MEDIA INQUIRIES:

Benjamin Taisacan Manglona International Airport (Rota)

- Open and operational
- Able to receive flights

SEAPORT OPERATIONS

Current Status

- The Port of Saipan is open for commercial traffic and cargo operations without restrictions. All cargo operations shall be conducted at the discretion and under the coordination of Saipan Stevedore Company and the vessel agent.
The backup generator at the main port has been installed and assessments to the dock lights are underway to see if they are conducive for night operations.
- **The Port of Tinian is under Port Heavy Weather Condition (PHWC) WHISKEY as of 12:00 p.m, May 4, 2026. The Port of Tinian is open for commercial traffic and cargo operations without restrictions.**
- Rota West Harbor: Due to potential hazards at Berths 1 and 2, the U.S. Coast Guard has ordered a suspension of all cargo delivery loading and discharge at the commercial berths.

Navigation Safety

- Mariners are advised to use caution when entering or departing waterways
- Report damaged navigation aids to the U.S. Coast Guard Forces Micronesia/Sector Guam Command Center

PUBLIC SAFETY

NO CHANGE FROM PREVIOUS SITREP

General Updates

- All beaches on Saipan and Tinian are now open; however, CNMI DPS advises the public to remain cautious as debris may still be present in the water.
- All beaches on Rota remain closed
- All non-essential service fees are temporarily suspended during the recovery period

FOR MEDIA INQUIRIES:
CNMI JIC COORDINATOR - MIGUEL DANDAN (miguel.dandan@marianas.edu)

JIC UPDATE: 024
Monday, May 4, 2026

Joint Information Center

Traffic Safety Notice for Saipan

Due to dark intersections and non-functioning traffic signals, motorists are advised to follow these guidelines:

- Complete Stop: Come to a full stop at all intersections
- Right of Way:
 - First vehicle to arrive proceeds first
 - If arriving at the same time, yield to the vehicle on your right
- Left Turns: Yield to oncoming traffic unless you have established the right of way
- Reduce Speed: Slow down well in advance of intersections
- Stay Alert: Treat all non-functioning signals as a 4-way stop
- Use Signals: Clearly indicate your driving intentions

Pedestrian Safety

- Exercise extra caution, especially at night
- Be aware that street lighting may be limited or unavailable

Security Operations

- Routine patrols are being conducted at FEMA generators located at water well sites.
- These patrols are aimed at preventing tampering and safeguarding critical infrastructure essential to water distribution.

Public Services

- The Bureau of Motor Vehicles (BMV) remains closed until further notice.
- All driver's license and registration fees are waived during the closure period.

DPS remains actively engaged in maintaining public safety, protecting critical resources, and supporting recovery operations across the island.

FEDERAL ASSISTANCE

DEBRIS REMOVAL SCHEDULED TO BEGIN IN SAIPAN

The U.S. Army Corps of Engineers, in coordination with FEMA and CNMI partners, is preparing to begin residential debris removal operations in Saipan this week.

FOR MEDIA INQUIRIES:

Residents should start sorting storm-related debris into categories and placing it in the public right-of-way (ROW)—the area between the roadside and your property line, within 10 feet of the road.

A neighborhood-by-neighborhood pickup schedule will be announced soon.

COMMODITY DISTRIBUTION (SAIPAN)

The CNMI Office of Homeland Security and Emergency Management (HSEM), in coordination with FEMA and non-profit partners, will continue commodity distribution operations to support affected residents. Distribution will include bottled drinking water and Meals Ready-to-Eat (MREs).

Schedule and Locations:

- **May 4, 2026 | Airport Field | 0900 – Until supplies last**
- **May 6, 2026 | Koblerville Youth Center | 0900 – Until supplies last**
- **May 8, 2026 | Garapan Fishing Base | 0900 – Until supplies last**

Operations will be conducted in accordance with established distribution procedures. Additional sites and distribution dates will be announced as operations continue.

POTABLE WATER SUPPORT (SAIPAN)

Free potable water distribution remains available to support residents during ongoing recovery operations.

Location: Paupau Beach and Hopwood Middle School

Hours: 0700 – 1900 daily

Limit: Up to 100 gallons per vehicle

This water filling station is operated using reverse osmosis systems and is a joint effort between the Federal Emergency Management Agency, CNMI Government, and the United States Air Force.

Food Assistance (NAP) Update

DCCA's Nutrition Assistance Program (NAP) has received USDA approval for emergency waivers to support households impacted by Typhoon Sinlaku.

- Medical expenses
- Funeral expenses
- Other serious disaster-related needs not covered by insurance or other sources

U.S. Small Business Administration (SBA) Disaster Loan Programs

The U.S. Small Business Administration (SBA) is offering low-interest disaster loans to homeowners, renters, businesses, and nonprofits impacted by Super Typhoon Sinlaku.

Homeowners and Renters

Eligible residents may apply for loans to:

- Repair or replace primary residences (up to \$500,000)
- Replace personal property, including vehicles (up to \$100,000)
- Access low fixed interest rates with terms up to 30 years
- Receive no payments and no interest for 12 months
- Fund mitigation improvements to reduce future disaster risk

Businesses and Nonprofits

Businesses and nonprofit organizations may apply for loans to:

- Repair or replace physical property damage
- Cover financial losses related to disaster impacts
- Access funding up to \$2 million
- Benefit from low fixed interest rates and extended repayment terms
- Support rebuilding and mitigation improvements

Economic Injury Disaster Loans (EIDL)

Small businesses and nonprofits experiencing revenue loss due to the disaster may apply for Economic Injury Disaster Loans (EIDL) to:

- Meet ordinary and necessary financial obligations
- Maintain operations during recovery
- Access loans up to \$2 million
- Receive no payments and no interest for 12 months
